## CALLING YOUR IRIDIUM HANDSET FROM A LANDLINE

Currently, it is only possible to call an Iridium phone from a landline in the USA, UK, Australia, New Zealand and a few European countries.

To overcome this short-term problem, a call router has been developed which allows a call to be placed from any landline/mobile telephone to your Iridium handset. Please note this service is charged on a 'receiving party pays' basis (*just like roaming on a GSM phone*). Due to the charging basis of this service you are required to complete the details below and fax it to Maritime Communications Services Pte Ltd at +65 6-222-1828.

Name: \_\_\_\_\_ Tel No: \_\_\_\_\_

Address: \_\_\_\_\_

\_\_\_\_\_

Iridium Telephone Number: 8816 314 \_\_\_\_\_

Please open the Iridium router to the number as detailed above. I understand that all calls to the Iridium handset made via the router will be charged to my account in accordance with my current contract.

Signed \_\_\_\_\_ Print Name \_\_\_\_\_

From October 1st 2002 callers will be asked to enter the last 8 digits followed by #.

**EXAMPLE** Caller wishes to connect with Iridium subscriber 8816 314 12345

1. Caller dials **+65 629 86253**
2. Caller hears **"Please enter the last 8 digits of the Iridium subscriber number you are trying to reach followed by the # key"**
3. Caller enters **314 12345 #**
4. Caller hears **"Please wait whilst your call is being routed" "Allow at least eight rings for your call to be connected"**
5. Caller is connected with Iridium subscriber
6. If Iridium subscriber is unavailable the Iridium messaging centre will inform the caller. Alternatively the caller will be asked to re-enter the iridium subscriber number in full, e.g 881631412345 which will allow the caller to leave a message. (subject to Iridiumsubscriber setting voice mail parameters)

### Notes:

- 1) You will not be charged for the satellite connection until the iridium phone is answered. However, the party placing the call will be charged by the landline provider as soon as connection to the router is made.
- 2) The router service is charged at US\$2.00 per minute. This price may be changed from time to time. We will advise you of any changes 14 days in advance.
- 3) We reserve the right to change the router number and will advise you accordingly.

**Please fax to Maritime Communications Services Pte Ltd at +65 6-222-1828.**

**For further clarification, please contact us at telephone: +65 6-222-1826.**
